Jabra A320s

Instant Bluetooth stereo connectivity for your PC

Bringing Bluetooth to your PC
The Jabra A320s provides instant Bluetooth connectivity to your PC so you can connect wirelessly with other Bluetooth enabled devices such as headsets, mobile phones, cameras and printers. In addition, the Jabra A320s is a Class 1 Bluetooth product with a range of up to 100 metres* and exceptional stereo audio quality.

Stream music and audio sounds wirelessly to your Bluetooth stereo headset
The stereo profiles in the Jabra A320s make it perfect for listening to music on Bluetooth stereo headsets. Enjoy hi-fi quality sound without the hassle of wires – and without disturbing anyone around you.

VoIP via your Bluetooth headset and transfer pictures and files
With the Jabra A320s, you can take advantage of the growing number of VoIP (Internet phoning) services. By connecting your now Bluetooth enabled PC to your Bluetooth headset, you can enjoy wireless conversations all day long. You can also transfer files and pictures as well as synchronize data including calendar and contact updates.

Revolutionize your mobile lifestyle. Release your Jabra

*Range limited by Class of paired device

Quick start guide

Pairing the Jabra A320s (in your PC) to a Jabra Bluetooth headset

- Insert the supplied CD into your PC and follow the on-screen instructions to install the software
- Insert the Jabra A320s into the USB port on your PC (when instructed)
- Put the Jabra headset in pairing mode (see headset user manual)
- Right click the Bluetooth icon on the task bar on your PC screen
- Select "Explore my Bluetooth places"
- Click "View devices in range" to see all available devices
- Right click the Jabra headset and select "Pair device"
- Enter the passkey or PIN = 0000 (4 zeros)
- Right click the Jabra headset and select "Connect"
- The connection will be established automatically, otherwise if the Jabra headset is ringing, press the answer/end button to confirm the connection.
